Fashions at the Capital

The Well Dressed Woman of Smart Society, What She Wears; The Time and Place. By MARGARET WADE.

The most extravagant prophecies the early winter regarding the dress of the smart feminine world have been ful-filled in the National Capital, as well as filled in the National Capital, as well as in every other city of the country. Washington, despite its claim to Southern conservatism and the influences of the new administration, distinctly opposed to extravagance in every form, is indusing in the present day craze for new and rich colorings only found in the most expensive velvets and satins, the modern but high priced laces, unusual combinations in furs, and the unprecedented demand for beads cut like jewels, and jewels worn with the prodigality of jewels worn with the prodigality

Although there have been no private balls, and the state receptions of the White House show a distinct falling off in diamond tiaras and ropes of pearls, the succession of dinner parties, the small dances, and the Monday evening recep-tions of the Vice President and Mrs. Marshall are occasions on which Washington leaders and their guests appear in the richest, as well as newest, fashions. Naturally Washington regards those matrons in the diplomatic circle making an annual visit to Paris as the natural leaders in dress. It is consequently most gratifying to remark that several of these prominent and much-favored of these prominent and much-tavored ladies are Americans who wear their gowns and jewels with a grace and dig-nity in which their American birth and girlhood, their foreign education and worldly experience all have due value.

The handsome hostess at the reception on Tuesday evening, when all nation joined in celebrating the Kaiser's birth day at the German Embassy, in her gown of gold brocade with necklace and tlarra in pearls and diamonds was as always one of the conspicuously well-gowned women of the diplomatic corps.

whether at home or abroad, Another American-born ambassadoress who has an extensive and well-chosen wardrobe which makes her one of the est-gowned women of America, is Mme de Gama, wife of the Brazilian Ambas sador. Mme. de Gama, in spite of her enviable position and large private fortune, retains much of the simplicity of her wholesome girthood in every-day matters, but when she koes to buy her clothes each season she buys the best the curtiers of the world have to offer and never makes a mistake in suiting each gown, wrap, or hat to her own in-dividual style and the occasion for which it is intended.

A superb creation worn by Mmc. de Gama is probably the very best example in Washington, if not in America, of the bead-incrusted gown as developed in It is a Beer model and cwn in company with the high coloring and dazzling iridescence of the smart companies in which it appears is due to the massing of the millions of highly polished beads in creatals and original style of coloring to the millions and original style of coloring to the massing of the millions of highly polished beads in creatals and original style of coloring and original style of coloring to the massing of the millions of highly polished beads in creatals and original style of coloring and original style of coloring to the massing of the millions of highly polished beads in creatals and original style of coloring to the millions of highly polished beads in creatals and original style of coloring to the massing of the millions of highly polished beads in creatals and original style of coloring to the massing of the massing no massing of the millions of highly politically politically and silver with milk white Jones. The foundation of all the head work is presumably ivory white chiffon, or the softest of satin, as the entire gown hangs in close lines from the home on Scott Circle, now occupied by Mrs. Henry F. Dimock.

Miss Julia Meyer who Leads, which are small and tube-like and applied in close, slightly curved lines, of away the skirt well in about the ankles, while the modish width about the ankles, while the modish width about the ankles, while the modish width about the upper part of the skirt is produced by three

flounces that open from the waist line and form a sharp pointed effect. Two of these flounces are of lace, the middle one of beads, the latter ending in an inch deep silver fringe. A panel effect in beads down the frent of the skirt is in harmony with the train that is solid in beads from belt to hem. The top of the gown is white tulle incrusted the same glistening line of silver and crystal, with a large motif directly in-front. In this the pure, milk white beads predominate and vary in size from the tiny cube, so small that only the finest needle can place it on the net foundation to square and oval particles to an eighth

A second motif and jewel of the milk or chalk color beads is placed in the back of the corsage from which fall long strands of silver fringe. With this With this Vice President's reception from her own dinner party, wore a necklace of pearls with the large pure white diamond as While Beer, of Paris, claims

credit for the beaded gown as we know it in its present extravagant form, he has by no means a monopoly of this embellishment. Several Worth gowns are showing the same elaborate treatment in all the new crystal and duo crystal

m the Maison Worth, however, trimming is always trimming, however it may envelop the figure, while the real beauty of the gown is to be found in the severity of line that this par-ticular artist in clothes holds as a secret all his own. The royal blue velvet gown by Mme. de Gama on Tuesday evening showed itself a masterpiece of the Worth school, with its close-fitting tunic of blue and crystal beads made to follow what old-fashioned patrons of this make love to call princess lines.

The celebration of Emperor Williams' stry-little birthday brought to the Gerwhile the majority of the diplomats em-bellished their ordinary evening dress with jeweled orders and gorgeously ed ribbons, giving a picturesque the waist line, to a company that was limited to Unusual as

There were several notable reminders of the past administration in this particular company which included not only the present Secretary of State and Mrs. Bryan, but several members of former

Mrs. Meyer, wife of the former Secretary of the Navy, for seven years one of Washington's leading hostesses, looked bandsome and modish as ever in a superb gown of black satin with the overdres of beads, the latter in dark, rich color-ing combined with jet. Mrs. Meyer, whos siender and graceful figure makes her one of the handsomest women in any

How to Shed a Rough, Chapped, or Blotchy Skin

(From Beauty's Mirror.)

(From Resuly's Mirror.)

This is what you should do to shed a bad complexion. Spread evenly over the face, covering every inch of skin, a thin layer of ordinary mercolized wax. Let this stay on over night, washing it off next morning. Repeat daily until your complexion is a clear, soft, and beautiful as a young girl's. This result is inevitable, no matter how solled or withered the complexion. The wax literally absorbs the filmy surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old skin coming off at a time. Mercolized wax is obtainable at any drug store; one ounce usually suffaces. It's a veritable wonder worker for rough, chapped, reddened, blotchy, pimpled, freckied, or sallow skin.

Pure powdered saxolite is excellent for

sallow skin.

Pure powdered saxolite is excellent for a wrinkled skin. An ounce of it dissolved in a half-pint witch hazel makes a refreshing wash-lotton. This renders the skin quite firm and smooth; indeed, the very first application crases the finer times; the deeper ones soon follow.

MRS. CHARLES KELLOGG DRURY the merce and Mrs. William C. Redfield, and is being extensively entertained by Washington friends.

the lower edge ending well above the knees. Miss Meyer's bodice was cut V shape, finished in flat foids of blue tulle. She wore a pearl necklace with long slender earrings of turquoise.

Another hostess of former years helped to celebrate the Kaiser's birth-day in Washington, and, at the same time show that she maintains her smart day in Washington.

time show that she maintains her smart time show that she maintains her smart standard of dressing, was Mrs. Alfred Beveridge, wife of ex-Scaator from Indiana, who accompanied Mrs. Marshall Fleid. Mrs. Beveridge, only a little less trimming an inch and a half deep, but in sharply pointed motifs. Mrs. Miller also middle in appearance than when she diamond ornaments. Field. Mrs. Beveridge, only a little less girlish in appearance than when she come to Washington a bride, wore a gown of golden yellow brocade draped slightly about the hips, and with rather long train, as trains are measured this winter. Her decolletage was more square than round, and her bodice entirely of brocade, in rather severe lines. Her ornaments included a long string of superb pearls worn twice around her neck and knotted at the top of her deneck and knotted at the top of her de colletage. She wore her hair ther brow after the fashion of of today. Mrs. Beveridge's gown was one of the

comparatively few examples of onterial only. The richness of the ma-terial and the graceful lines in which it was built giving it a distinction that could not have been increased by any mount of jeweled lace or much ma nipulated tulle.

Mrs. Preston Gibson, one of the younger matrons among the guests of the em bassy, were a gown on most distinctive lines and of new material. This is cloth of gold, in perfectly plain surface, made with long train, and tunic overdress of gold tissue. The overdress shows the new line, long in the back and short in the front, while the bouffant effect that it is prophesied will arrive with the rush of the spring modes is already shown This, though, is in such graceful and modified form that no one could mistake it for the much-dreaded bustle.

This overdress is cut in scallops boun only in the gold tissue. The bodice fol woman present wore her smartest and lows the usual close line, and, like newest gown and handsomest jewels, young Mrs. Beveridge's brocade bodice, is of the material of the skirt. A six inch girdle of pastel shades of pink and blue, divided by a band of gold, marks

Unusual as Mrs. Gibson's gown is, an 'exclusive' model of a well-known Paris maker, it was duplicated, except as re gards some slight detail, in the gown worn by Mrs. Thomas K. Laughlin. The pink and blue is missing from Mrs. Laughlin's gown, which, in its place, has a very French corsage flower model presumably, on the poinsettia blosso

out in a deep pink tone. Notwithstanding the natural surprise in finding an "exclusive" gown duplicated finding an "exclusive gown arons took so near home, both young matrons took their disappointment kindly and are the J. Edison Briggs, Mrs. Julius. Maedel J. Edison Briggs, Mrs. W. M. Simpkins Mrs. Charles Kolb, Mrs. W. M. Simpkins entrance together in the embassy draw-

Mrs. John Skelton Williams, wife of the newly appointed Comptroller of the Cur-rency, is one of the several young matrons recently added to the official circle and reckoned a distinct acquisition therein. Mrs. Williams made what was practically her debut in Washington on Monday evening at a dinner in honor of her husband and herself by the Assistant Secretary of the Treasury and Mrs. Hamlin, when her gown was one of the handsomest of the evening. Its owner's preference for white, and the season's de-mand for the new, dasp coloring were both gratified with the best effect. The skirt and bodice were of French handwas an overdress that formed an entire skirt opened in front from beit to hem with slight drapery in the back ending in an 18-inch train. This part of the gown was white satin emboased in veivet flowwas white sain emoosed in vervet now-ers in large, much seattered outline of deep wisteria and crimson tones. Mrs. Williams had her chestnut hair arranged in graceful coil at the back and held by a diamond-topped comb.

Another attractive addition to the new

gown at Mrs. Marshall's reception on Monday evening which showed the smartest workmanship in all its details, yet to the unnitiated might be described as on plain lines. In this gown we see the new, rich petunia shade, which is more red than purple, and is a distinct offering of the present year. The skirt shows very scant drapery, but has the necessary fullness arranged at the waist. The bodice is a combination of both vel-vet and chiffon, all in one shade, the vet and chiffon, all in one shade, the chiffon forming the scant drapery on the bodice, while the sleeves are of velvet. These sleeves mark Mrs. Miller's dress as one of the newest of the winter as they are half length, and in anything but an evening dress might be desirable as "baggy." There is neither cuff ner frill to mark their termination an inch or two below the elbow where they are in some invisible way brought into a compara-

The bead embellished gowns of which one hears so much, now that the season is at the height of its splendor in dress. is not limited by any means to dinner party or ballroom, as some of the after-noon tollets and dancing frocks share in d trimming.

One of the handsomest gowns of this character was worn on Wednesday aft-ernoon by Mrs. W. B. Lamar in assisting at the tea table at Vice President and drs. Marshall's reception

Mrs. Lamar's gown is dark blue with tunic largely of blue seads, lightened in lines of silver and This is made with surplice and three-quarter sleeves. Mrs. Lamar topped this costume with one of the smartest all-black hats of the winter.

An exceptionally becoming, as well as very smart, tailored visiting toilet is that worn by Mrs. Logan Hill, now visiting her mother, Mrs. Gillette Hill, at th her mother. Mrs. Gillette Hill, at the latter's home in Washington. Young Mrs. Hill's suit is of velvet finished duvetyn, soft as the most delicate green moss, which it closely resembles in color. The skirt is of the tiered variety, close without being tight, and two inches off the ground. The coat is a half length back with much culcaway front. with much cut-away front. The collar and the five-inch cuffs are of black vel-vet. Topping this Mrs. Hill, who has an abundance of blond hair, matching her exquisitely clear complexion, wears Spanish turban with black trimming and
